Policy statement approved by the Standards and Outcomes Committee, 30 June 2021

Our Vision

We have one core purpose:

To have the biggest positive impact in the varied communities we serve through ensuring top drawer education for our learners. #TransformingLives

How do we ensure this across our trust?

In all we do we are:

1. Ethical to the core, ensuring that education is always front and centre
2. Futures focused system leaders – never simply followers
3. Collaborative in every endeavour
4. Resolutely learner centred.

What does this look like across our trust?

Education

We are:

1. Ruthlessly ambitious for all who learn and work with us
2. Unwaveringly inclusive – determined on eradicating barriers to educational success
3. Committed to excellent teaching
4. Determined upon academic excellence for all in our communities
5. Compassionate, ethical and caring advocates for all in our communities
6. Outwardly facing and globally conscious

Operations

We are:

1. Committed to the very best people development and empowerment
2. Determined to shout loudly and share proudly our successes
3. The best professional and technical experts (supporting education) in the sector
4. Committed to the very best understanding and management of risk

Financial

We are:

1. Providing the best possible public service for the best possible value
2. Determined to supplement our public income with shrewd income generation
3. Building financially sustainable models of educational improvement in our communities
4. Demonstrably efficient in all we do

Our values

- We will work inclusively within our communities, embracing the varied localities we serve while sharing our common vision and values.
- We will develop the very best leaders of the future, working to improve education and transform lives.
- We will adhere unwaveringly to the ‘Nolan Principles’ of Public Service, which is made clear in our commitment to Ethical Leadership.

Statement of Intent

It is our core responsibility to ensure that students have access to the very best education possible. One of the most fundamental and influential aspects of a child's education is the curriculum that they have access to. The power of curriculum is immense. It has the power to not only transform an individual, but to also transform whole communities and shape their understanding of the world and their place in it. Therefore, it is imperative that the curriculum on offer within our academies is truly world class and gives students access to powerful knowledge that takes them far beyond what their own individual experience ever could. In order to achieve this we must ensure we expose all students 'to the best that has been thought and said and engender an appreciation of human creativity and achievement'. To truly transform lives we must not only show students what is possible but inspire and instil the confidence in them to go out and do it.

All learners in our academies will experience a curriculum that

1. is **ambitious** and **enjoyable** through knowledge and skills developed from Foundation Stage to Post 16 and Adult provision.
2. is **knowledge rich**, ensuring access to a wide, global cultural capital – thus maximising lifetime opportunities.
3. is **inclusive**, nurturing and tailored towards the needs of the individual.
4. is focused on developing the very best **oracy, literacy, numeracy** and **digital** skills – enabling access to the widest learning and the very best careers possible to ensure we develop global citizens.
5. is **enriching**, ensuring all experience a rich variety of cultural, artistic and sporting activities.
6. is **broad** in terms of coverage and (at least) encompassing the breadth of the 2014 English National Curriculum.
7. celebrates the uniqueness of each educational setting in terms of **localised knowledge and skills**.
8. **develops** character, personal pride and the highest moral standards.
9. celebrates **diversity**, challenges **injustice**, promotes **equality** and encourages the creation of a better world.
10. is delivered by well-qualified, forward-thinking, skilled, passionate **professionals**.

1 Legal Framework and Definitions

This policy has due regard to statutory legislation, including, but not limited to

- The Education and Inspections Act 2006
- The Health Act 2006
- The Equality Act 2010
- The Education Act 2011
- The Education (Independent School Standards) Regulations 2014.
- The Immigration Act 2016
- The General Data Protection Regulation (GDPR)
- The Data Protection Act 2018
- Statutory Framework for the Early Years Foundation Stage (DfE, 2021)

This policy also has due regard to DfE/Ofsted guidance and other Early Years experts, including, but not limited to, the following:

- The Early Years: Foundations of life, health and learning (Dame Tickell, 2011)
- Development Matters (DfE, 2020)
- Early years outcomes (DfE, 2013)
- Bold beginnings (Ofsted, 2017)
- Working with the revised Early Years Foundation Stage: Principles into Practice (Julian Grenier, 2020)

2 Scope of this Policy

- 2.1 This policy applies to all academy leaders, academy staff and academy learners.
- 2.2 For the purpose of this policy the reference to ‘pupils’ includes all learners in our academies.
- 2.3 For a glossary of the terms used in this policy refer to Appendix A.

3 EYFS Principles

3.1 The EYFS curriculum underpins all future learning by promoting and developing:

- communication and Language
- physical development
- personal, social and emotional development
- literacy
- maths
- understanding the world
- expressive arts and design.

Our academies weave the Early Years’ seven key features of effective practice into our daily practice promoting:

1. The best for every child
2. High quality care
3. The curriculum: what we want children to learn
4. Pedagogy: helping children to learn
5. Assessment: checking what children have learnt
6. Self-regulation and executive function
7. Partnerships with parents

4 Teaching and learning

- 4.1 Research states that there is no way or style that has more impact than another to enable outstanding outcomes. As academies, we believe that high quality play, interactions with adult and children should be all encompassing and fully focussed on achieving excellent outcomes for our youngest children.
- 4.2 The features defined in the policy on teaching and learning and apply to the Foundation Stage in the same way as Key Stage 1 and Key Stage 2.

4.3 Good practice within the Foundation Stage begins with:

- the partnership between teachers and parents/carers to help our children to feel secure within the academy and to develop a sense of well-being and achievement
- highly skilled practitioners that have the knowledge of how children develop and learn, and how to reflect this within their teaching
- a range of approaches that provide first-hand experiences, give clear explanations, make timely interventions and extend and develop the children's play, talk and other means of communication
- a skilfully planned progressive and ambitious curriculum that helps children achieve their best
- high quality provision that builds upon and extends children's interests and develops their intellectual, physical, social and emotional abilities
- a communication rich environment where children are encouraged to talk about their learning, develop independence, resilience and self-management
- high quality experiences to develop early reading skills including daily exposure to stories and high quality systematic phonics
- a sharp focus on the needs of individual children using a range of evidence. This looks at children's progress and future learning needs, which are regularly shared with parents and carers and acted upon to support the children in developing new skills and knowledge
- the regular identification of training needs linked to appraisals and the children's needs for all adults working in the Foundation Stage
- preparing children for the next stage of their education.

5. Play at the Early Years Foundation Stage

5.1 Through play, children explore and develop the learning experiences that help them make sense of the world. They practise and build up their ideas, learn how to process and manage feelings and begin to understand the need for rules, sharing and structures. They have the opportunity to communicate with others as they investigate and solve problems. All of these skills form the firm foundations for future learning.

6. Inclusion at the Early Years Foundation Stage

6.1 As a Trust, the children are at the centre of every decision that we make. Children make the best progress when they feel happy and safe and their individual needs are met within all aspects of their learning.

6.2 Within Early Years, we set individual, ambitious targets for each child based on a wide range of information. These are shared with parents and reviewed on a regular basis. Detailed analysis takes place by highly skilled professionals that plan next steps for individual children. These are communicated with parents so that support can be given through fun activities at home.

6.3 Our academies meet the needs of all children through:

- focusing upon supporting and developing communication and language skills with all of our children through exposure to high quality texts and interactions with adults and peers
- planning engaging opportunities that build upon and extend the children's knowledge, experience and interests, and develop their self-esteem and confidence
- using a variety of teaching strategies that are based on children's learning needs
- providing a wide range of opportunities to motivate and support children, and to help them to learn effectively
- offering a safe and supportive learning environment, in which the contribution of all children is valued
- planning challenging activities for all children that develop their skills across all areas of the Early Years curriculum and in preparation for year 1 and beyond
- monitoring children's progress, and providing support as necessary. This can be done within the academy or by seeking advice from external agencies. If additional support is needed, parents will be invited into the academy to agree what support is needed.

7. The Early Years Foundation Stage Curriculum

7.1 Our curriculum for the Foundation Stage reflects the seven areas of learning outlined in the Early Years Foundation Stage Statutory Framework (2021) (Communication and Language, Physical Development, Personal, Emotional and Social Development, Literacy, Mathematics, Understanding the World, Expressive Arts and Design). Children's learning experiences enable them to develop competency and skill across a number of learning areas.

7.2 By the end of the reception year, our children have a daily mathematics, literacy and phonics session to help prepare the children for year 1. A number of transition events take place between Early Years and KS1.

7.3 Long, medium and short-term planning is completed regularly building upon the assessment information from practitioners within the setting. This identifies the intended learning outcomes, for children all children. When planning activities, children interest and individual needs form the starting point.

7.4 Outdoor learning is an essential part of the Early Years curriculum and helps children to develop gross and fine motor skills that form the basis of future learning. Children will be outside learning in all weathers.

8. Assessment

8.1 We make regular diagnostic assessments of children's learning and use this information to ensure that future planning reflects identified needs. Assessment in the Foundation Stage takes the form of observation which involves adults within the Early Years and parent observations from home. The collection of assessment data in the Foundation Stage Profile is

a statutory requirement. Academies may also use other assessment tools such as FFT, Tapestry or Evidence me.

8.2 During the first month in Nursery and Reception classes, the teacher assesses the ability of each child. These assessments allow us to identify patterns of attainment within the cohort, ensuring that planning is adjusted to meet the needs of individuals and groups of children. We share the information contained in the Foundation Stage profile at our parental consultation meetings. From September 2021, children in Reception will take part in the Reception Baseline Assessment (RBA) which is a national assessment for early mathematics, literacy, communication and language carried out by academy staff. This must be completed in the first six weeks of Reception.

Further information can be found here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/983889/Reception_baseline_assessment_and_reporting_arrangements_v1.0.pdf

8.3 Progress from the academy's internal baseline is evaluated using a wide range of assessment information collected through teaching and learning activities. Discussions around children's progress take place formally at least 3 times a year (see assessment cycle in appendix 1)

8.4 In the final term of reception, an overall summary of these assessments are to the Local Authority for analysis. This identifies if children have achieved the good level of development expected at the end of Reception. This also includes a summary of a child's characteristics for effective learning as detailed in the Early Years Foundation Stage Development Matters document.

8.5 This information is then sent to the child's next teacher to use to make plans for the year ahead as well as the summary of each child's characteristics of effective learning. This information is also shared at parental consultation meetings.

8.6 Each teacher keeps a learning journey for each child which takes the form of a book and/or an electronic system. This captures children's significant and memorable moments that demonstrate progress. These are shared with parents on a regular basis and usually at parent consultations. Parents are actively encouraged to contribute to their child's learning journey, ensuring that achievements both in and out of the academy are captured.

8.7 Parents and carers receive an annual report that comment on their child's progress in each area of learning and a summary of the characteristics of learning. It highlights the child's strengths and areas for development. These are completed in the summer term and sent to parents and carers prior to the end of the academic year. For children within Reception, information sent to the local authority for end of year data will also be given to parents as part of their end of year report.

9. The role of parents and carers

9.1 Parents and carers have an important role to play in the education of their child. A collaborative and positive relationship is essential in providing a child with a positive educational experience. We aim to ensure this relationship by:

- talking to parents and carers about their child before starting at the academy. This could take the form of home visits or transition visits within the academy
- providing opportunities to the children to spend time with their teacher before starting at the academy
- inviting all parents and carers to an induction meeting before their child starts at the academy
- offering parents and carers regular information on how to support their child's learning at home and contribute to their assessment
- encouraging parents and carers to talk to the child's teacher if there are any concerns
- having flexible admission arrangements and allowing time to discuss each child's circumstances
- offering a range of activities, throughout the year that encourage collaboration between child, academy and parents/carers
- providing various activities that involve parents and carers. These could take the form of parent learning mornings, parent workshops or providing home learning that can be completed with the child.

9.2 There is a formal meeting for parents and carers at least once a term, at which the parents/carers discuss the child's progress in private with the teacher. Parents and carers receive a report on their child's attainment and progress at the end of each academy year.

10. Safeguarding

10.1 Safeguarding children is essential within our academy and holds the highest priority. Clear policies and procedures are in place to ensure that children are safeguarded at all times. If there are any concerns in relation to safeguarding, these are reported immediately to the safeguarding lead within the academy.

10.2 The EYFS Leader must hold at least a Level 3 qualification with all other staff holding a Level 2 or equivalent qualification.

10.3 A key worker system may be used in the academy, providing the child and parents with a main point of contact. All staff within the academy work hard to ensure that all children are happy and feel safe. Concerns can be discussed with any member of staff.
