About ATT

Our Values

ATT2030 sets a values-driven culture that is explicit about how we work and lead:

Belonging & Becoming: we meet each child where they are and refuse to leave them there - giving them both roots and wings.

Integrity & Excellence: we act ethically, celebrate excellence, and pursue high standards in all that we do.

High Trust, High Accountability: decision-making sits close to pupils and communities; principals are trusted as strategic leaders; the central team acts as expert partner; accountability is professional, dialogic, and focused on learning and improvement.

Our Three Goals

Everything in ATT2030 is organised around three interlinked goals that describe the kind of people - pupils and adults - that we are forming:

Capable: equipped with the knowledge, skills, and emotional readiness to perform to a high standard, adapt to change, and contribute meaningfully.

Competent: possessing the knowledge, habits, and judgement to get things done – well, reliably, and independently – handling setbacks and making steady progress.

Confident: feeling safe, happy, and known – secure enough to take risks, speak up, and grow with purpose and integrity.

1. The kinds of SEND that are provided for:

Our academy currently provides additional and/or different provision for a range of needs, including:

Area of need	Condition
Communication and interaction	• Autism Spectrum Disorder • Speech and language difficulties
Cognition and learning	• Specific learning difficulties, including dyslexia, developmental coordination disorder (DCD), dyscalculia • Moderate learning difficulties • Severe learning difficulties
Social, emotional and mental health (SEMH)	• Attention Deficit Hyperactive Disorder (ADHD) • Autism Spectrum Disorder • Post-Looked After Children
Sensory and/or physical	• Hearing impairments • Visual impairments • Physical impairments

All Academy Transformation Trust Academies have adopted the Judith Carter Model. This is a strengths-based model and means we will also identify your child's strengths and needs across the 7 Cs:

- Curriculum
- Cognition
- Creativity
- Coordination

- Communication
- Compassion
- Control

2. The Academy's SEND support overview and 'Core Offer'.

Our staff closely monitor the progress made by all students and ask advice from the SENDCO, as soon as they have concerns about any of their students. We then follow the graduated approach documented below and **the Assess, Plan, Do, Review** cycle. A concern might relate to a student's attainment, progress, behaviour or social, emotional or mental health needs.

Register	SEN stage	Description of stage and actions required	Responsibility
Not on SEND support register	Stage T (Teacher)	- Teachers use a range of classroom assessments to identify students of concern and relevant targets. - Teachers then plan to support those students through adaptive teaching e.g. teacher tweaks and adaptations. - Additional classroom support/interventions may be implemented (see non-exhaustive list below). - The provision being made for these students is regularly reviewed as well as their progress towards targets.	Class Teacher Student
	Stage 1	- If concerns persist following a period at stage T, concerns will be shared with the SENDCO and parents. - Additional support/interventions may be planned. - The student's progress and any interventions will be monitored and reviewed carefully for impact by class teacher and SENDCO. - Referrals may be made to external agencies for assessment and additional support (list below). - Additional in-school assessments may be carried out (list below). - For speech and language concerns – if the issues relate solely to speech, the student will stay at stage 1.	Class Teacher SENDCO Parents Student
Added to SEND support register. Parents notified and involved in termly reviews	Stage 2 SEND K A student has SEND if they have a learning difficulty or a disability which calls for specialist provision to be made.	- Following a review of Stage 1 and of the student's learning, SEMH or social needs, if concerns persist and the student is requiring support which is additional to and different from standard quality first teaching, they will be moved to stage 2. - Referrals may be made to external agencies for assessment and additional support (list below). - Additional in-school assessments may be carried out (list below). - Teacher, parents, student and SENDCO will set SMART targets and plan relevant provision and interventions. - Targets will be captured in a learning support plan which will be reviewed termly with parents.	Class Teacher SENDCO Parents Student
Request for statutory assessment of SEND	Stage 3 SEND E	- For some students, stage 2 support will not be adequate to enable them to make expected progress towards their targets. - Following evidenced cycles of SEND support, the academy may apply for an Education, Health and Care Plan. From the agreement to assess, the local authority should coordinate an assessment of needs within a 20-week window. The student, parents and academy are fully involved in this process. Needs will be identified, targets set, and plans made for provision to meet these needs. - These students will continue to be supported by a learning support plan which is reviewed on a termly basis and will have a statutory annual review of their EHCP.	Local Authority SENDCO Class Teacher Parents Student

3. Our Academy's Core Offer

Academy assessments	Academy Interventions	External agencies
Speech and Language BPVS – Receptive language Speechlink – Speech sounds Talk Boost – Expressive language WellComm – Expressive language	Speech and Language Speechlink Talk Boost WellComm 1:1 SALT target interventions	NHS Speech and Language Therapy (SALT) provides specific targets (on a rotation basis) and resources to be worked on in school. Specialist Education Services (SES) are a team of teachers with different specialisms. They can support with specific communication needs.
Literacy NTS – termly reading and SPaG (spelling, punctuation and grammar) assessments Star Reader – termly reading comprehension screener GL Rapid – dyslexia screener Dyslexia checklist YARC – reading comprehension PhaB2 – Phonological awareness	Literacy Shine Reading Paired reading Reciprocal Reading Precision Teaching Little Wandle keep-up and catch-up Colourful Semantics Kate Ruttie dyslexia ladder Self-Regulated Strategy Development - Writing	Specialist Education Service (SES) are a team of teachers with different specialisms. They can support with: learning assessments and needs such as spelling, writing, reading, maths, dyslexia assessments and issues such as anger, anxiety, resilience or emotional regulation. Psychology & Therapeutic Service (P&TS) provides a specialised response to students whose progress in educational settings is presenting concerns to their parents/carers and to staff. They can carry out a vast array of assessment to unpick students' specific needs and support with targets and provision planning.
Numeracy NTS – termly maths assessments SENT – Early numeracy	Numeracy Shine Maths Essex Maths	
Other Cognitive Assessments GL CoPS – visual/auditory memory processing GL LASS – visual/auditory memory processing Lucid Recall – executive function, working memory and processing	Other Cognitive Interventions Hertfordshire Phonological Awareness Memory Fix Kate Ruttie working memory ladder	
SEMH Boxall - SEMH baseline Hamish & Milo – SEMH baseline	SEMH ELSA (Emotional Literacy Support Assistant) Trauma-informed ELSA Hamish & Milo Zones of Regulation Colour Monsters Lego Therapy	Psychology & Therapeutic Service (P&TS) provides a specialised response to students whose progress in educational settings is presenting concerns to their parents/carers and to staff. They can carry out a vast array of assessment to unpick students' specific needs and support with targets and provision planning. (Mental Health Support Team) MHST provides support to any children identified as having potential issues with their mental health.
Sensory/Physical Pearson Sensory Profile – Sensory baseline DCD checklist	Sensory/Physical Sensory Circuits Dough Disco Wiggle While You Squiggle Fine Motor interventions Gross Motor interventions	NHS Occupational Therapy (OT) helps students with fine or gross motor concerns, sensory needs or executive functioning difficulties. NHS Audiology supports students with assessments and hearing needs. NHS Community Paediatricians support students who present with developmental delay and can arrange tests and coordinate support from other relevant professionals. NHS Physiotherapy can support students with physical needs.

4. Supporting students moving between phases and preparing for adulthood

We are very aware that moving to a new class or academy can be a time of worry and anxiety for students and their families.

Parents are encouraged to visit the academy with their child before they start to meet staff and see their classroom, toilets and ask any questions. Any identified resources from these discussions will, wherever possible, be put in place prior to the pupil starting. We will, where possible, talk to the school/setting a pupil is transferring from to share information prior to the pupil starting. This prevents any delay in getting things in place and supports a smooth transition.

In the EYFS our teachers visit the local nurseries to meet staff and, where possible, spend time with the children. In the summer term, new Reception parents and children have the opportunity to visit and play in their new classroom. Parents are also invited to a welcome meeting held by the Early Years staff and SLT to give them more information about what Early Years looks like in our school. If a child at nursery has SEN, the EYFS teacher and SENDCO will meet with the nursery SENDCO and/or parents to discuss any reasonable adjustments that need to be put in place, as well as anything that will help the child to settle, such as likes, dislikes, routines etc. If a child has any diagnoses prior to EYFS, the EYFS teacher and SENDCO will also liaise with all relevant personnel and plan accordingly.

All children visit their next year group before the end of the summer term. This gives them the opportunity to get to know their teacher and peers. If a child has SEN, an individualised transition plan will be in place.

The SENDCO from the receiving secondary school will be invited to attend Year 6 EHCP annual reviews of students. This gives an opportunity to discuss any concerns the student and parent may have, as well as preparing for the best possible support required for each individual pupil, where required. Our SENDCO will also meet with the SENDCO from the receiving school(s) to ensure a smooth transition is in place for all learners. Where necessary, extra transition activities are arranged with the receiving secondary school.

5. Adaptations to the curriculum and learning environment

All our teaching staff have accessed training in making tweaks and adaptations to their teaching, to recognise strengths and meet needs across the 4 broad areas of need, which our Judith Carter Model breaks down into the 7Cs areas such as:

- Adapting our curriculum to ensure all students are able to access it, for example by grouping, 1:1 work, adapting the teaching style or content of the lesson.
- Adapting our resources and staffing and deploying TAs to support.
- Using recommended aids, such as laptops, coloured overlays, visual timetables, larger font, standing desks and attention aids.
- Adapting our teaching, for example, giving longer processing times, pre-teaching of key vocabulary, and reading instructions aloud.

6. Expertise and training of staff

All staff attend training on various SEND areas throughout the year. We attend staff training to share knowledge, strategies and experiences and to ensure consistency of the academy's approach for students with SEND.

Teachers and support staff attend training run by outside agencies that are relevant to the needs of the students they are working with.

The SENDCO works very closely with specialists, who provide advice and direct support regularly. In the past year, staff have accessed a range of training courses including:

- Lego Therapy
- ELSA
- Dough Disco
- Wiggle While You Squiggle
- BPVS
- TalkBoost – EYFS, KS1 and KS2
- Memory Fix
- Pearson Sensory Profile
- Sensory Circuits
- Colourful Semantics
- Zones of Regulation
- Boxall
- Makaton
- Essex Maths
- Solution circles
- ISM meetings both 1:1 and whole class.
- Dyslexia-friendly environments
- Intervention tracking
- Learning plan tracking
- 7Cs and the ADPR Cycle
- 7Cs model for One Plans
- 4 Functions of Learning Support
- Attachment Aware, Trauma-Informed Practice (Louise Bomber model)
- Waves of Provision
- Provision Maps
- Planning for Transitions
- Dyscalculia awareness
- Phonological awareness
- Self harm
- Stammering awareness

7. Disabled Access and Provision

We adhere to the requirements, as per the Equality Act 2010 to make reasonable adjustments for any student who has specific long- or short-term health needs or a disability. This might include exploring the scope for and following recommendations about physical adaptations to the academy or curriculum, providing access for students with disabilities.

Curriculum accessibility is closely monitored and assessed by the class teachers, under the direction of the SENDCO, subject leaders and the Senior Leadership team.

For further information please see our Accessibility Plan.

8. Securing equipment and facilities

It may be that your child's needs mean we need to secure:

- Extra equipment or facilities
- Additional adult support
- Additional training for our staff
- External specialist expertise

We will consult with specialist agencies and services who loan or supply specialist equipment and get recommendations about how best to support your child to access their learning. We will use our notional budget and a threshold sum of £6000 to cover any necessary costs before seeking additional financial assistance from the Local Authority.

9. Involving parents and carers

If you think your child might have SEND or that they are struggling in a specific subject area, the first person you should tell is your child's class teacher who will investigate or pass on any concerns to our SENDCO as appropriate. Our staff will follow the Assess, Plan, Do, Review procedure detailed above.

If your child has a learning plan, we will provide termly reports on your child's progress. At these review points, we will:

- Set clear outcomes for your child's progress
- Review progress towards those outcomes
- Offer you the opportunity to discuss your views and the support we will put in place to help your child make that progress
- Identify what we will do, what we will ask you to do, and what we will ask your child to do

The SENDCO may also attend these meetings, to provide extra support.

10. Exam access arrangements

Students who have been diagnosed as having a learning difficulty may be eligible for extra time and/or other "access arrangements" to complete internal examinations and public examinations.

Parents/carers are asked to liaise with the SENDCO in good time, with respect to this.

11. Access to extra-curricular and enrichment activities

All of our extra-curricular activities and academy visits are available to all our pupils, including our extra-curricular clubs, with an expectation that 100% of pupils can access every element of the core offer.

All students are encouraged to go on our academy trips, including our residential trips. If appropriate, our staff will contact you to discuss any reasonable adjustments which need to be made to enable your child to participate.

All students are encouraged to take part in sports day, performances and special workshops.

No student is ever excluded from taking part in these activities because of their SEN or disability and we will make whatever reasonable adjustments are needed to make sure that they can be included.

12. Support for Looked after Children and Previously Looked after Children with SEND

Our designated teacher will work with our SENDCO to make sure that all teachers understand how a looked-after or previously looked-after student's circumstances and their SEND might interact, and what the implications are for teaching and learning.

Children who are looked-after or previously looked-after will be supported much in the same way as any other child who has SEND. However, looked-after students will also have a personal education plan (One Plan). We will make sure that the One Plan and any other support plans or EHCPs are consistent and complement one another.

13. Complaints about SEND provision

If you have any complaints about this information report or SEND in general, please contact our SENDCO.

A copy of the full complaints procedure is available on the academy website.

14. External agencies

Where necessary we work with other agencies to ensure that the needs of pupils are met. For children with EHCPs, we invite other agencies to contribute to the annual review meeting. We take advice from other agencies on meeting pupils' needs. Some of these organisations include:

- Suffolk Psychology & Therapeutic Service
- School Nursing team
- Suffolk Specialist Education Services (SES)
- Local charities
- West Suffolk Mental Health Support Team
- Speech and Language Therapy
- Occupational Therapy
- Clinical Psychology
- SENDIASS
- Suffolk SEND network
- Community Inclusion Forum
- Local and Trust schools

15. The Local Authority Offer

The Local Authority has a Local Offer website and information about services that may be available to you, ranging from referral pathways, information and advice to short breaks and leisure activities. <https://www.suffolklocaloffer.org.uk/>

16. Contact details of other support services for parents of students with SEND

SENDIASS – This is an independent service that is not affiliated to the Local Authority or any academies. This service can share information and will explain parental rights regarding SEN and disabilities. They also hold a range of coffee mornings and information and support sessions. <https://suffolksendiass.co.uk/>.

Suffolk Parent & Carer Forum – This charity works with families of students with SEND and works in co-production with the local authority and other services to improve the quality of services provided. <https://suffolkpcf.co.uk/>

Suffolk Family Carers – They provide support to children and young people who are affected by a family member who has a disability, illness or other need. <https://suffolkfamilycarers.org/>

17. Monitoring arrangements

This information report will be reviewed by the SENDCO every year. It will also be updated if any changes to the information are made during the year. This report will be approved by the governing board.
